

Dried Fruit Packaging Statement

(This statement does not expire and will only be updated if changes are required)

To All Graceland Fruit Customers,

Graceland Fruit, Inc. (GFI) packages all of its dried fruit products in food grade polyethylene plastic liners which are folded closed to seal the product in corrugated cartons. The cartons are tape sealed to provide security and evidence of product tampering.

This method of packaging is an industry standard with dried fruit products and will keep the product fresh and food safe when handled and stored as recommended.

If you have any questions contact either your Broker or our Customer Service Department.

Respectfully,

Christopher J. Oberski
Corporate Quality Manager
Graceland Fruit, Inc.
