

Pesticide Statement

(This statement does not expire and will only be updated if changes are required)

To All Graceland Fruit Customers,

Graceland Fruit, Inc. maintains a strict program for pesticide residual analysis with all of our raw fruit and vegetable ingredients. Random samples are pulled each crop harvest year and tested in an approved independent laboratory. Any product exceeding the stated US FDA MRL requirements are rejected and returned to the supplier. Additionally, products are verified to meet country of sale MRL requirements prior to shipment.

This program is managed and maintained by the Quality Assurance Department at Graceland Fruit, Inc. and is traceable through electronic and hard copy records to our fruit suppliers' fields or orchards of origin. Further information or questions can be directed to your Broker or the Graceland Fruit Customer Service Department.

If you have any questions contact either your Broker or our Customer Service Department.

Respectfully,

Christopher J. Oberski
Corporate Quality Manager
Graceland Fruit, Inc.
