Our proprietary process gently converts fresh, flash frozen fruit into premium dried fruit ingredients. Our nutrient-dense superfruits deliver exceptional flavor, texture, color, and performance in a wide variety of commercial food applications.

### Cranberries

Naturally redder. Naturally better. Distinctively delicious. Our proprietary process retains more of the vibrant red these hearty berries are known for, delivering a major pop of color and flavor to both sweet and savory foods. Plus, this delicious sweet-tart superfruit is a nutritional powerhouse that packs a healthy one-two punch of antioxidant and anti-inflammatory benefits. Remarkably versatile, our cranberries add exceptional flavor, color and nutrition to a wide variety of applications.

### Cherries

Boldly tart. Deeply red. Naturally nutritious. On trend. Consumers are seeking bolder, more adventurous flavors and the distinctive sweet-tart flavor of our dried cherries hit the mark! We pioneered and perfected our proprietary infused dried fruit process with Michigan-grown Montmorency cherries. Our signature fruit adds uniquely rich flavor, texture, and nutrition that wakes up the palate and makes food crave-worthy. These delicious, versatile wonders pair well with both sweet and savory applications. Not to mention, our deeply hued treasures are packed with natural antioxidants and bioactive compounds that aid in post-workout recovery, support heart health, and promote better sleep.

### Blueberries

Rich, sweet, cultivated blueberries. Intensely flavorful wild blueberries. Both are crazy-popular, remarkably versatile, and powerfully nutritious. Our premium dried blues deliver authentic taste, texture, and piece integrity in every bite. Moist and chewy, these tasty little gems are packed with fresh blueberry flavor that bring fun texture, intense sweetness, and vibrant color to a wide variety of foods.

### Strawberries

Succulent. Sweet. Deliciously distinctive. Our premium dried strawberries burst with the fresh-picked flavor of summer. The application possibilities for our ruby-red morsels are truly endless. A fan favorite for their succulent sweet taste, strawberries also provide a unique combination of Vitamin C, essential nutrients, dietary fiber, and phytochemicals with health benefits from heart to head. Our exceptional infused dried strawberries are as fresh-tasting and delightful as nature intended.

### Apples

Tangy sweet-tart flavor. Firm texture. Light, natural color. Our premium infused dried apples are a perennial favorite used in a wide variety of products. Made from tree-ripened Rome and York apples known for their juicy sweet-tart taste and excellent holding texture, they contain antioxidants, phytonutrients, and flavonoids that help strengthen immunity and support digestive, heart, and brain health. Authentically delicious and incredibly versatile, our exceptional infused dried apples bring the perfect balance of flavor, texture, and nutrition to food.

## Infused Dried Cranberries

Naturally redder. Naturally better. Distinctively delicious.  
Nutrient dense. Remarkably versatile.

See, taste, and experience the Graceland Fruit infused dried cranberry difference

Our all-natural cranberry juice concentrate adds rich color and intense flavor to a variety of food, beverage, health, and wellness products.

Made from both organic and conventional cranberries, the juice extracted during our patented drying process is captured, de-pectinized, filtered, and evaporated to achieve target Brix levels.

Versatile, flavorful, and delightful, it is simply 100% juice...no added sugar, flavors, colors, or other additives. Naturally packed with antioxidants, vitamins, and health-promoting proanthocyanidins (PACs), the bold sweet-tart taste of our exceptional cranberry juice adds a powerful one-two punch of flavor and nutrition.

Talk to Our Experts

Graceland Fruit, Inc. is a leading producer and global distributor of premium quality dried fruit ingredients for the food industry. Our exceptional product and service performance make it easy for innovative food manufacturers and providers to create delicious, on-trend products that surprise and delight their consumers.

© Graceland Fruit, Inc.

Soft-N-Frozen™ fruit ingredients are ready-to-use, easily scooped, and, unlike traditional IQF fruit, immediately soft and edible. Our proprietary process preserves quality, fruit piece integrity, color, taste, and soft-to-the-bite texture; pasteurization ensures microbial safety. These flavorful, all-natural fruits are free of sulfites and artificial colors and flavors.

**Our fresh-frozen fruit is tempered and gently blended with a natural stabilized syrup. Available in Classic and Premium:**

- Classic Soft-N-Frozen™ contains 50–80% processed fruit
- Premium Soft-N-Frozen™ contains 85–89% processed fruit

Available in a variety of fruits, cuts, and piece sizes, Soft-N-Frozen™ fruit ingredients remain soft to the bite while adding exceptional flavor, color, and texture to a wide range of dairy and non-dairy fresh, frozen, refrigerated, and baked foods. Uniquely ours. Deliciously delightful!
